### **About Input**

Input is an agriculture commodity streaming company with a focus on canola, the largest and most profitable crop in Canadian agriculture. Input enters into multi-year canola streaming contracts with canola farmers in western Canada. Pursuant to the streaming contract, Input purchases a fixed portion of the canola produced, at a fixed price, for the duration of the term of the multi-year contract. Input is a non-operating farming company with a portfolio of ten canola streams, all of which produce canola and revenue for Input in the year the agreement is signed. Input plans to grow and diversify its low cost canola production profile through entering into additional multi-year canola streaming contracts with farmers across western Canada.

Input is focused on farmers with quality production profiles, excellent upside yield potential, and strong management. Input has completed canola streaming contracts in Northern Alberta, Western Saskatchewan and throughout East Central Saskatchewan.

### **About Canola**

Not many people know much about canola, but the Canadian canola industry is larger than the more well-known Canadian potash industry.

- Canola is the largest and most profitable crop in Canadian agriculture, generating more than 25% of all farm receipts.

- Canadian-grown canola contributes \$19.3 billion to the Canadian economy each year, including more than 249,000 Canadian jobs and \$8.2 billion in wages.
- In 2012, canola was ranked as the 7th most important Canadian export by value, compared to potash in 10th position.
- In 2012, canola was Canada's top export to China, representing a full 16% of all Canadian exports to China.
- Canada is the dominant canola exporter in the world, with a 72% global export market share in 2011/12.
