

INPUT CAPITAL CORP. MONTHLY UPDATE - DECEMBER 2013

01/06/2014

REGINA, Jan. 6, 2014 /CNW/ - Input Capital Corp. ("Input") (TSX Venture Exchange: INP) is releasing its monthly update for December 2013 summarizing canola deliveries and the acquisition of new multi-year canola streams.

"The grain handling and transportation system in western Canada is working through a record crop," said President and CEO Doug Emsley. "The good news is that the grain companies and railroads are moving the crop to port positions at a record pace to keep up with export demand for our products. However, with so much product competing for railcars, we are seeing delivery delays into the elevator system. While Input is affected by these delays, our disciplined marketing plan has assured us delivery slots and our canola will be brought in when called for."

Canola Deliveries

For the current year to date:

	Base Tonnes Sold (MT)	% of FY14 Contracted Base Tonnes (MT)	Average Realized Price (\$/MT)	Bonus Tonnes Sold (MT)
FY2014	2,634	15.4%	\$472	12

New Canola Streams

Gord Nystuen, Vice-President Market Development, and Input's Business Development team continue to meet with farmers across the prairies as farmers begin plan for next year's growing season. As new streaming contracts are finalized, they will be summarized in these monthly updates. Input signed its first streaming contract in February of 2013.

Updated Corporate Website

Input has also updated its corporate website, which can be found at www.inputcapital.com. The new website features an updated Fact Sheet on the company.

About Input

Input is an agriculture commodity streaming company with a focus on canola, the largest and most profitable crop in Canadian agriculture. Input enters into multi-year canola streaming contracts with canola farmers in western Canada. Pursuant to the streaming contract, Input purchases a fixed portion of the canola produced, at a fixed price, for the duration of the term of the contract. Input is a non-operating farming company with a portfolio of ten canola streams, all of which produce canola and revenue for Input within a year of the agreement being signed. Input plans to grow and diversify its low cost canola production profile through entering into additional canola streaming contracts with farmers across western Canada.

Input is focused on farmers with quality production profiles, excellent upside yield potential, and strong management teams. Input has completed canola streaming contracts in Northern Alberta, Western Saskatchewan and throughout East Central Saskatchewan.
