

## **INPUT CAPITAL CORP. MONTHLY UPDATE - FEBRUARY 2014**

03/03/2014

REGINA, March 3, 2014 /CNW/ - Input Capital Corp. ("Input") (TSX Venture Exchange: INP) is releasing its monthly update for February 2014 summarizing canola deliveries and the acquisition of new multi-year canola streams.

Input sold 1,403 metric tonnes (MT) of canola in February, the highest monthly total since November 2013. This remains a slower pace than expected as a result of extreme delays in the grain handling and transportation system.

"We are happy to see canola deliveries and sales picking up, but the overloaded rail lines in western Canada continue cause delivery delays," said President and CEO Doug Emsley. "The positive news for Input is that we have delivery slots and we have locked-in prices for those deliveries; it's just a matter of timing. We have been and will continue to be diligent in working with the grain handling companies to ensure an appropriate schedule for our remaining deliveries. Our average realized price is well in excess of the current spot market and we expect to retain that price advantage over the remainder of our deliveries."

### **Canola Deliveries**

Input expects to receive 18,297 base tonnes of canola from the 2013 growing season.

For the current fiscal year year-to-date:

	<b>% of 2013 Growing</b>			
	<b>Base Tonnes Sold</b>	<b>Season Base Tonnes</b>	<b>Average Realized</b>	<b>Bonus Tonnes Sold</b>
	<b>(MT)</b>	<b>(MT)</b>	<b>Price (\$/MT)</b>	<b>(MT)</b>
<b>FY2014</b>	4,721	26%	\$466	12

### **New Canola Streams**

Input did not enter into new Streaming Contracts during February.

Gord Nystuen, Vice-President of Market Development added, "We are hearing good things at the kitchen table; our potential farmer partners like what we're offering, but some deals take longer than others. We are pleased with our existing pipeline of potential streaming deals and will continue to diligently invest our capital into the right farms and with the right partners."

As streaming contracts are finalized, they will be summarized in these monthly updates.

### **About Input**

Input is an agriculture commodity streaming company with a focus on canola, the largest and most profitable crop in Canadian agriculture. Input enters into multi-year canola Streaming Contracts with canola farmers in western Canada. Pursuant to the Streaming Contract, Input purchases a fixed portion of the canola produced, at a fixed price, for the duration of the term of the contract. Input is a non-operating farming company with a diversified portfolio of canola streams, all of which produce canola and revenue for Input within a year of being signed. Input plans to grow and diversify its low cost canola production profile through entering into additional canola Streaming Contracts with farmers across western Canada.

Input is focused on farmers with quality production profiles, excellent upside yield potential, and strong management teams. Input has completed canola Streaming Contracts in Northern Alberta, Western Saskatchewan and throughout Eastern Saskatchewan.
