

## **INPUT CAPITAL CORP. ANNOUNCES RECORD REVENUE AND DEPLOYMENT MONTH PLUS Q4 AND ANNUAL RESULTS RELEASE DATE**

05/01/2014

Regina, Saskatchewan, May 1, 2014 - Input Capital Corp. ("Input") (TSX Venture Exchange: INP) is releasing its monthly update for April 2014 summarizing canola deliveries and the acquisition of new multi-year canola streams.

Input sold a record 2,324 metric tonnes (MT) of canola in April at an average price of \$493 per MT, for monthly revenue of \$1.1 million. This is the first time that Input has recorded more than \$1 million in monthly revenue. Input also received a further 471 MT in March subsequent to the publication of the monthly update, pushing March deliveries to 1,816 MT.

"We have now delivered and sold almost half of the 2013 crop," said President and CEO Doug Emsley. "In addition, the strength of our marketing program is demonstrated by the fact that April's sales have increased our average realized price for the 2013 crop year.

"Input's business is growing rapidly. Canola is being delivered and converted to cash, and new streams are being signed which will grow the company's canola sales very significantly over the years to come."

### **Canola Deliveries**

Input expects to receive 18,697 base tonnes of canola from the 2013 growing season.

The following table summarizes canola sales for the 2013 growing season:

<b>Fiscal Year</b>	<b>Base Tonnes Sold (MT)</b>	<b>% of 2013 Growing Season Base Tonnes (MT)</b>	<b>Average Realized Price (\$/MT)</b>	<b>Bonus Tonnes Sold (MT)</b>
FY2014	6,538	35%	\$471	12
FY2015	2,324	12%	\$493	0
<b>Total</b>	<b>8,861</b>	<b>47%</b>	<b>\$477</b>	<b>12</b>

## **New Canola Streams**

During the month of April 2014, Input also entered into six canola streaming contracts with farmers in Saskatchewan for total up-front payments of \$9.7 million, a new monthly record. Three of the contracts represent expanded or new contracts with existing farm partners as a result of farm expansions undertaken by these farmers, while the other three contracts are with farmers new to Input. All of the farms are located in Saskatchewan.

Emsley added, "This brings our deployment for this season to more than \$22.8 million to date, which is 65.4% higher year-over-year and ahead of our internal investment objectives. Our deal pipeline also continues to grow as farmers discover how a streaming contract can provide liquidity to farming operations, particularly when crop sales are slow, or when expansion opportunities come along."

Input has now invested a total of \$42.1 million to date, in multi-year canola streaming contracts with 20 farmers.

## **Streaming Contract Summary at April 30, 2014**

	Contracted volume for growing season							
	2013	2014	2015	2016	2017	2018	2019	2020

## About Input

Input is an agriculture commodity streaming company with a focus on canola, the largest and most profitable crop in Canadian agriculture. Input enters into multi-year canola streaming contracts with canola farmers in western Canada. Pursuant to the streaming contract, Input purchases a fixed portion of the canola produced, at a fixed price, for the duration of the term of the contract. Input is a non-operating farming company with a diversified portfolio of canola streams, all of which produce canola and revenue for Input within a year of being signed. Input plans to grow and diversify its low cost canola production profile through entering into additional canola streaming contracts with farmers across western Canada.

Input is focused on farmers with quality production profiles, excellent upside yield potential, and strong management teams. Input has multi-year canola streams with twenty farmers located across Alberta and Saskatchewan.
